slides based on a lecture by Prof. Gerd Stumme

Homework: Additive & Nested Line Diagrams

Please read and try to understand the slides *29 to 43* (you can skip slides 36 to 38) about *additive* and *nested* line diagrams. Include other material, if possible (e.g., the script).

In the next week,

- you will have the chance to ask questions regarding the slides
- I will show you an example how to draw a nested line diagram
